

# The Private Healthcare Summit 2020

## The transformation of private healthcare in a decade of change

Tuesday 23 June 2020

The Queen Elizabeth II Centre | Broad Sanctuary, Westminster, London

On June 23rd, 2020 at the QEII Centre in London, LaingBuisson will be holding the seventh annual Private Healthcare Summit. Previous years' events have attracted around 200 of the country's senior executives from the industry, and were praised for the quality of the speakers, the content and the networking opportunities.

The focus for 2020 is "The transformation of private healthcare in a decade of change". The next ten years will see a radical shift in private healthcare - breakthroughs in Artificial Intelligence and digital health, the consumerisation of private healthcare, a volatile market, the drive for improved outcomes and reduced costs. The 2020 Summit will feature contributions from the opinion leaders and entrepreneurs who will lead the industry's response to change. This year, the Summit is again supported by the Independent Doctors Federation (IDF).
